

We take green very, very seriously.

Our industry-leading **Green** program outlines the important ways Vipac's packaging helps the environment.

Reuse

Vipac bags never need to be thrown away. They have lots of uses around the home and office, including:

- Holiday/Seasonal storage.
- Office files and personal care.
- Blankets, comforters, pillows.
- Toys, games, puzzles.

Reduce

Vipac is working closely with manufacturers everyday to reduce the size of their packaging. We can do the same for you.

Recycle

Ask us about our innovative **Go Green.** packaging insert that urges the consumer "Please Don't Throw This Bag Away!" and offers a rebate of \$1.00. Each recycled bag may help save the planet.

Printed on 100% recycled paper.

Green first. Green best.
